

Technical Declaration of Compliance by the Manufacturer

DECLARATION No. 02/2022
for
Welded Panels Type FLAT 2D from Steel Wire
QUALISTEELCOAT E-1302

TABAL Sp. z o.o. declares that the fencing panels of the type FLAT 2D, welded from steel wire, and the technology and materials used in their production are in compliance with the following standards:

- **PN-EN 10223-7:** Steel wire and wire products for fences. Part 7: Welded steel wire panels for fencing.
- **PN-EN 10245-4:** Steel wire and wire products. Organic coatings on steel wire. Part 4: Polyester coated wire.
- **PN-EN 10218-2:** Steel wire and wire products. General provisions. Dimensions and dimensional tolerances of wire.
- **PN-EN 10244-2:** Steel wire and wire products. General provisions. Non-ferrous metal coatings on steel wire. Part 2: Zinc or zinc-alloy coatings.
- **PN-EN ISO 1461:** Zinc coatings applied by immersion on steel. Requirements and tests.
- **License No. E-1302 for the paint coating in accordance with the International Quality Label for Coated Steel** (Licence has proven to fulfill the requirements of Qualisteelcoat specifications for the following corrosivity categories and durability, by powder coating). Continuous galvanized steel, SZ1, Corrosivity C3H.

TABAL Sp. z o.o. guarantees that all products meet the requirements of the commonly applicable PN-EN standards, and their production takes place under conditions compliant with all applicable environmental requirements, both from general norms and legal regulations. Additionally, Tabal Sp. z o.o. guarantees the durability of the paint coating in class C3H in accordance with the International Quality Label for Coated Steel.
